💾 WORK EXPERIENCE

Front-end Engineer Manager | Assembly | Santa Monica, US (remote)   Jul 2021 – Present

Employee recognition platform that fosters engagement and rewards colleagues.

· Managed a cross-functional team of 7 engineers, overseeing the end-to-end mobile development of Android and iOS apps using TypeScript, React Native, and Expo.

· Spearheaded the publication of the mobile application to both the App Store and Play Store in under 4 months, driving user acquisition growth by 55% through an efficient CI/CD pipeline.

· Mentored developers, fostering a collaborative culture that improved individual performance, enhanced code quality, and reduced idle time between pull requests and code reviews.

Lead Software Engineer | InVision | New York, US (remote)   Aug 2015 – Jul 2021

Widely-used digital product design platform for prototyping, and collaboration.

· Web development with AngularJS, React, MobX, Redux, Node.js, Express, Golang.

· Worked on team management, billing, authorization and enterprise admin features.

· Designed and improved the email delivery service using Amazon SQS

Lead UI Engineer | StreamHub | London, UK (partially remote)   Aug 2013 – Aug 2015

Leading provider of streaming services, offering cutting-edge solutions for efficient and high-quality audio and video content delivery.

· Led a greenfield project from initial analysis to project completion.

· Improved recruitment pipeline to grow the engineering team.

· Web development with JavaScript, AngularJS, Websockets and D3.js.
